The average scores for the Eberly College of Science (ECoS) may appear low relative to those for other colleges. In fact, these results are historically consistent with earlier paper and online results for ECoS course sections. Additional examination of the ECoS data indicates that the relatively lower averages for the college cannot be attributed to the online delivery method nor to a particular course level, course type, discipline, or instructor type, or instructor rank.

Business and Liberal Arts, and most Engineering courses, are not included above because they will transition to Online SRTEs in spring 2011.
